

Hydraulic Vice 220 kN

Profile

The Hydraulic Bench Vice is designed for hydropneumatic clamping of pipes and tubular workpieces.

Environmental Conditions

Ambient temperature: +5°C / +40°C

Power Sources Available

Air supply: 283 - 991 l/min

Approvals

Machinery directive 2006/42/EC (CE marking)

- Pneumatic pressure regulator for pump air supply
- Hydraulic pressure regulator for working pressure
- Enerpac air driven pump with foot peddles

For additional information please refer to our respective Workshop Equipment catalogue.

Hydraulic Vice 220 kN

Dimensions

Depth, closed	1,150 mm / 3.77 ft
Depth, open	1,800 mm / 5.91 ft
Width	680 mm / 2.23 ft
Height	1,900 mm / 6.23 ft
Gross weight	730 kg
Tool dimensions	3" – 9"

Hydraulic system

Air hydraulic pump	0.25 l/min, MWP 700 bar / 10,150 psi, with integrated 3/3 way function valve
Function lines	Hydraulic hoses for supply and return line
Hydraulic cylinder	for the prism (V-block) / clamping function
